**Hear it Two: super loud, super light-weight & super cool**

A cool headphone for the best possible sound reproduction of portable players, like iPod & Co. Hear it Two offers far better audio quality with higher sound pressure levels and superior looks, than many others. Soft and comfortable ear-cushions are swivel mounted making it easy to transport Hear it Two in a flat carry case. A high-quality signal-cable made from oxygen-free copper (HP-OFC) with bending protection and gold-plated jack-plug guarantees trouble free performance.
